"EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

EMQs in Obstetrics and Gynaecology: Pt. 1, MCQs and Key ...

The Department of Obstetrics and Gynaecology has two broad areas of research activity. The first covers the use of large population databases to identify key predictive features associated with human pregnancy; such as fetal growth restriction, preterm labour and perinatal death. The second major area focuses on the cellular and molecular aspects of the growth of the placenta and its ...

Complete Revision Guide for MRCOG Part 2: SBAs and EMQs ...

In my opinion, this publication is a high quality practice book not only for medical students and MRANZCOG candidates, but for all trainees in obstetrics and gynaecology at both undergraduate and postgraduate levels. MRCOG Part 2 candidates may find this book useful as extra reading material, keeping in mind that the OSCE structure, curriculum and format are somewhat different in the UK exam.
