---

### Pressure Cooker Time Chart · The Typical Mom

A pressure cooker is an airtight container like a closed vessel that is usually bigger in size than ordinary cooking kettles. It is usually made of washable and durable stainless steel or sometimes aluminum. A large amount of food can be prepared in one go due to the steam building inside which makes the food tender earlier than ordinary cases.

---

### What Can I Cook In A Pressure Cooker?

Add the beans to the electric pressure cooker and cover with 6 cups of water. Bring the water and beans to a boil using the electric pressure cooker's sauté function on high. Once the water comes to a boil, lid the pressure cooker and cook for 1 minute on high pressure. When 1 minute is up, carefully release the pressure manually.
