Power vs. Force by David R. Hawkins M.D., Ph.D, Paperback

•••

The concepts of force and power seem to Page 11/31

convey similar meanings and are often confused for each other. But in physics, they are not interchangeable. Force is the fundamental result of an interaction between two objects, while power is an expression of energy consumed over time (work), of which force is an element. Force and power can both be Page 12/31

described and measured, but a force is an actual

. . .
