Making Predictions ESL Activities Games Worksheets

Prediction is a very useful reading skill. This activity can be used with any book, although ones which are split into chapters (which have "cliff-hanger" endings) may be more suitable. It can be organised a number of different ways: Most teachers read a book to the class, and this is an ideal opportunity for the children to predict.

1. Research. Predicting the winners of sporting events using modeling isn't a new concept, so we researched what others had done to try to learn what worked and what didn't. AdvancedFootballAnaltyics.com was a great source of knowledge on the subject as they have deeply explored predicting NFL games using statistics.
