A medley of cultural influences from around the world has helped make Southern food what it is today. At its core, Southern food is rooted in local and imported ingredients, necessity and frugality. It all began in Africa and Scotland -- fried chicken that is. The Scots had a tradition of deep-frying chicken in fat.

~~The Southern Cook Islands in Eastern Polynesian prehistory~~

Delicious southern cuisine began during the time of grand plantation homes and feasts of barbeque, cornbread, and gumbo. Without the influence of slavery, the South would not have a distinct food culture. White Americans in the pre-Emancipation era did not cook, because slaves prepared meals for them.

COOK was founded in 1997 by Edward Perry and Dale Penfold, who had the mad idea of trying to cook and sell frozen ready meals that would be made like you would at home. They've clung to this founding principle through thick and thin (and it's been pretty, darn thin at various points). They've also clung to their independence.

During the reign of the Cholas in Southern India (between 300 BC and 1279 AD), kheer was commonly offered as food to the gods at any kind of religious ceremony. Historical records show that payas , a version of kheer first made in the Indian state of Orissa has been a popular sweet dish in the city of Puri for the last 2,000 years or so.

Prehistoric Asia refers to events in Asia during the period of human existence prior to the invention of writing systems or the documentation of recorded history. This includes portions of the Eurasian land mass currently or traditionally considered as the continent of Asia. The continent is commonly described as the region east of the Ural Mountains, the Caucasus Mountains, the Caspian Sea and ...

Prehistory of Ohio provides an overview of the activities that occurred prior to Ohio's recorded history. The ancient hunters, Paleo-Indians (13000 B.C. to 7000 B.C.), descended from humans that crossed the Bering Strait. There is evidence of Paleo-Indians in Ohio, who were hunter-gatherers that ranged widely over land to hunt large game. For instance, mastodon bones were found at the Burning ...

Both morphology and ethnohistory suggest that the adzes in the Ngati Tiare cache (Rarotonga, Southern Cook Islands) are derived from Samoa. If true, this is further documentation of post-colonisation contact between West and East Polynesia, regions which were generally thought to have remained isolated from one another following human settlement.
