Product Design And Innovation University

Product design and innovation encompasses a variety of skills including an engineering theoretical understanding with marketing, branding, user

experience, entrepreneurship and provides our graduates with all of the skills to successfully benefit both their own ventures or to become innovators within other businesses.

BSc Product Design & Innovation

Degree | University

of ...

You'll have the option of these two routes of study: Computer Aided Product Design or Product Design and Innovation. In your final year you will have the opportunity to put into practice all your new skills in

both group and individual project work. There is also a range of topics covered for you to really cement your knowledge of product design.

Product Design and Innovation - Search - UCAS

If you're creative, fascinated by the

how and why of the objects you use every day, and get a kick out of solving problems, this BSc (Hons) Product Design and Innovation degree course will feed your curiosity and set you up for a career in creating and designing products.

Product Design and Innovation - University of Portsmouth

You will be introduced to the concept of product design and innovation as well as computer aided product design. Also we'll work on bridging any gaps in

your artistic and technical knowledge, providing an all round basis for further study. In your second year you will be given choices in the direction of your studies.

BA (Hons) Product and Industrial Design | UAL
Overview. The BDes (Hons), Product Design course covers a

very wide range of design activity and innovation from commercial 3D objects to conceptual design interventions in spaces and communication. With an emphasis on innovation and user-focus, you'll learn a range of practical skills in

visualisation, prototyping, CAD, materials, fabrication, business and marketing skills to prepare you for a career in design.

Product Design - Napier

As an Open University student you have a great

advantage over other design students in that your learning can be put into practice as you study. The BA/BSc (Honours) Design and Innovation encourages you to apply the thinking, methods, and techniques you learn to your own

context, enabling you to produce a portfolio of highly relevant design work.

Q61 | BA/BSc (Hons) Design and Innovation | Open University

Product Design Tools: This unit will broaden your understanding and

application of the principles of product design visualisation, presentation, tools and techniques. Product Design Projects 2A: You will develop your ability to satisfy both the technological and humanistic needs and requirements of

a product in the context of current social, economic and manufacturing requirements and regulations.

BSc (Hons) Product Design | Bournemouth University

The BSc Product Design and Technology degree

is a trans-disciplinary course that sets out to educate and energise the next generation of product designers with skills that enable the definition of new product opportunities, defined through applied research, tested through

working prototypes, and detailed in terms of design for manufacture.
