For investment protection, it supports multiple designs through footprint compatibility with Cinterion 3G GSM and CDMA modules including PHS8 , PXS8 and PV S8 . Like all Cinterion products, the PLS8 comes with full type approval (FTA) and pre-certification from the largest global network operators which speeds time to market.

With the newest 3GPP Rel. 9 LTE technology, PLS8 is optimised for high bandwidth computing, enabling speeds up to 100 Mbps for downlink and 50 Mbps for uplink. PLS8 and its variants, PLS8-E and PLS8-US, provide true

worldwide coverage and reliability even while roaming across different wireless networks. For investment protection, PLS8 supports multi designs due to footprint compatibility with Gemalto M2M's 3G/GSM and CDMA Cinterion modules PHS8 and PXS8/PVS8.
