R56 Water Pump Recall Information. 17 January 2012 - Filed under: Other MINI Yesterday the BBC reported a worldwide recall for the R56: BMW is recalling 235,000 Mini vehicles worldwide 29,868 in the UK because of a fault with an electric water pump.

R56 MINI Cooper Blog

When turbo-charged engines like the ones in the R56 Cooper S or JCW MINI are tuned the engine output is increased, this increase in engine output causes a build-up of cylinder pressure, which can cause cylinder cracks, however, this can also occur on standard cars. One solution to prevent the cylinders from cracking is to reinforce the block (Closed Deck), this ensures that cylinders are ...

The constraining factor on the MINI Cooper suspension changes (whether its the R53, R56, or even the newer F56), is the limitation in the front suspension travel. There is very little total amount of suspension travel given the suspension design and geometry. So, if you are thinking of doing either sport springs or coil-overs, most of the time this will lower the ride height (better ...

Car parts catalog for MINI Hatchback (R56) 1.6 Cooper S ...

Following the success of the R50/R52/R53 Mini Cooper relaunch, BMW completely redesigned the Mini lineup beginning in the 2007 model year. The R56 3 door hatch gained a handful of stablemates during this generation, including the R55 Clubman, the R57 Convertible, the R58 Coupe, the R59 Roadster, the R60 Countryman, and R61 Paceman. As with the previous generation Minis, the R5X generation ...

R56 LCI/Facelift Changes Guide — ALLMAG Auto Parts

The MINI's 1.6-litre engine is turbocharged for use in the Cooper S, and the result is one very quick little car. Expect 0-60mph in just 7.0 seconds and a top speed of 142mph, with the sort of mid-range performance that makes overtaking easy. The Cooper SD gets a 143bhp 2.0-litre diesel engine which, thanks to 225lb/ft of pulling power, provides a top speed of 134mph and a 0-62mph time of 8 ...
