Studies in Western contexts suggest that religiosity is in conflict with rationality since it relates to paranormal beliefs and distrust in science. East Asian cultures, known to be holistic and tolerant of contradictions, may, however, not experience this conflict. Using the International Social Survey Program, we analyzed data from Buddhists, Protestants, and Catholics in South Korea ( N s = 358; 391; 135), as well as Catholics and Protestants in Austria and Denmark ( N s = 715;

Religion, Paranormal Beliefs, and Distrust in Science: Comparing East Versus West Clobert, Magali; Saroglou, Vassilis 2015-06-09 00:00:00  
Introduction In popular views, religion is seen as irrational and relating to paranormal, non-scientific, and even anti-scientific beliefs. In this framework, authors have argued that scientific and religious worldviews are fundamentally incompatible and in opposition with one another (Harris, 2004; Norris & Inglehart, 2004).

Religion Paranormal Beliefs And Distrust In Science

Abstract. This article uses a Canadian national sample to examine the relationship between conventional religious belief, church attendance, and belief in paranormal phenomena. Greater religious belief is strongly associated with greater paranormal belief. Church attendance (and other measures of religious participation) are only weakly associated with paranormal belief until conventional religious belief is statistically controlled; once this is done, greater church attendance is strongly ...

Religion Paranormal Beliefs And Distrust In Science

Another theory holds that religious individuals, already open to transcendent ideas, would also be more likely to hold paranormal beliefs. What Bader, Mencken and Baker find in their research is that both individuals with no religious beliefs and the most committed individuals -- those who attend services weekly -- are among the least likely to hold paranormal beliefs.

The Complicated Connection Between Religion And The Paranormal In Beyond Belief said more protections for religious groups were needed and called for a British Bill of Rights to formalise this commitment.. Religious people are three and a half times more likely to volunteer and be involved in community work, the report found and cited research in the US that suggested religious groups contribute \$1.2trillion to the economy each year.

Abstract. Paranormal beliefs are often divided between those that are central to traditional Christian doctrine, such as the belief in heaven and hell, and those that are commonly associated with the supernatural or occult, such as the belief in ESP and psychic healing. This study employs data from a recent nationwide random sample general population survey to catalog the social correlates of paranormal beliefs and to examine the relationships between religious and other paranormal beliefs.
