~~How to Remove the Faceplate From a Lever Door Knob | Home ...~~

When you are trying to remove handle, be very careful not to harm the frame of the door. Usually, people put extra pressure and force to pull the lever out, which can result in such horrible outcome. Another point is about the handles or knobs that have paint over. These are pretty hard to get out.

~~How to Remove Front Door Handle with Lock Easily?~~

Use an Allen wrench to remove the lever. Some lever handles have hexagonal-shaped fasteners that require an Allen wrench for removal. Look for these fasteners along the base of the lever, then use an Allen wrench that fits snugly into the head of the fastener. Turn the wrench to remove the fastener, then pull the lever away from the door by hand.

~~How to Remove a Lever Door Handle Without Screws | Hunker~~

Peel it to the side and loosen the T20 torx bolt inside as much as possible. It shouldn't fall out. There are a bunch of torx bolts along the edge. Remove them later. Pull the door handle open and you should be able to pull the lock cylinder straight out after the bolt is loosened. Release the door handle and look inside.

~~How to Remove and Replace a Broken Interior Door Handle on ...~~

Remove the door handle retaining bolt from the rear of the door handle on the interior of the door using the appropriate sized wrench or socket. Step 3 Slide the door handle forward. Pivot the handle to disengage it from the door while turning the key 90 degrees to separate the handle from the lock actuating lever.

~~How to Remove a Volkswagen Exterior Door Handle | It Still ...~~

Step 4: Remove the door handle. Slide the door handle toward the front of the car, then the rear of the handle can be tilted out of the door. When this is done, the front of the handle will be free to move and can also be slid out of the door in a similar fashion. Any mechanisms that have to be disconnected will be apparent at this point.
