## DIANA: Manuals

A totally recoilless air rifle, the RWS Model 54 Air King uses a "floating action", to achieve its maximum accuracy. When this

magnum 54 air rifle is fired, the action slides rearward in the stock, absorbing the recoil, and permitting the pellet to exit the barrel before any of the spring vibration affects its travel.

LOT easier to shoot accurately. The 48/52 must be held just right to shoot well, and the 54 does not. A 48/52 might be as accurate under controlled conditions with a practiced, skilled marksman, but for taking a quick shot, or for shooting off a bench rest the 54 is far superior.
