The spelling errors don't take away from how valuable this book is. It's basically the only source we have for reviewing OMT, and it's good. But 16 years have ...

The deck contains every chapter of OMT Review 3rd edition by Savarese. I tried to keep this deck strictly to OMM content (some chapters have a lot of anatomy which I left out). Lastly, some of the information in the book is out of date or lacking in detail so I supplemented it with information from my medical school.
