Although the company
Schecter Guitars opened up
back in the mid-1970s, it
wasn't until the 1990s that
they saw a massive
breakthrough in the market..
Schecter's popularity surged
during the 2000s, mainly due
to Schecter's production of
desirable guitars appealing
to the masses of metal and
rock guitar players.. This
is unsurprising since many
of their models are
specialized for metal music.
