Science North unveiled its Sudbury Solar System Path on Tuesday, a scale model of the solar system along Ramsey Lake.

Science North unveils solar system path along Ramsey Lake

I think for a lot of people [the moon] is taken for granted, it's this sort of humdrum thing, and galaxies and nebula and stars and planets are more intriguing." It's true that some of the most epic ...

7 solar system mysteries scientists haven't solved yet

Any way the solar wind blows, its effects can be felt throughout the solar system. The solar wind is a continual stream of protons and electrons from the sun's outermost atmosphere - the corona. These ...

Solar wind: What is it and how does it affect Earth?

The blue color of asteroid Phaethon has puzzled scientists since the space rock's discovery in the early 1980s.

How the bluest asteroid in the solar system got its color

Solar cell technology is a prominent clean energy source. In particular, organic solar cells, part of the third generation of solar cells, are gaining attention as a core technology for urban solar ...

Development of large area, organic solar cell printing technology

Mars hasn't been kind to NASA's InSight lander. The lander's solar panels are coated in dust, and power is dwindling. Despite the challenges, the lander delivered on its promise to help scientists ...

NASA Mars Lander Will Sacrifice Longevity for Science

A new study shows a deep connection between some of the largest, most energetic events in the universe and much smaller, weaker ones powered by our own Sun. The results come from a long ...

Colossal collisions linked to solar system science

is betting on harnessing the power of nuclear in space to cut the time it takes to get to Mars in half - and unlock the secrets beyond our Solar System.

Speaking exclusively to Science Digest ...

Fusion rocket breakthrough to allow humans to LEAVE Solar System and 'claim own planets'

Collisions between the Parker Solar Probe and dust are so energetic ... zone of the Earth's seas-and could help pave the way for science on distant worlds. Imagine if you had a massive magnetic ...

Solar System

The mission's team has chosen to operate its seismometer longer than previously planned, although the lander will run out of power sooner as a result.

NASA's InSight gets a few extra weeks of Mars science

One-fifth of an ounce of dark specks brought to Earth from an asteroid by a Japanese spacecraft are some of the most pristine bits of a baby solar system ever studied, scientists announced ...

In Bits of Rocks, Clues to Solar System's Origins

Science North hosted a groundbreaking ceremony on Tuesday for its latest attraction, the Sudbury Solar System Path. Unveiled on June 21 - on the summer solstice and National Indigenous Peoples Day - ...

Stroll along Sudbury's boardwalk and tour the solar system

The proposed solar-biomass hybrid system is based on distributed multi-generation technology that integrates photovoltaic-thermal and biomass power sources. Adding an organic matter power source ...

Solar-biomass hybrid system satisfies home heating requirements in winter

A new analysis of an old meteorite from Mars' interior contradicts a common assumption about how rocky planets like the Earth, Venus, and Mars acquire elements such as hydrogen, carbon, oxygen, and ...
