finding seal(s) based on the requirements. The tool provides technical specifications for a seal for a given part number. This tool also helps find suitable Timken seal part numbers against competitor seals. To select a seal using this application, choose one of the search criteria provided in the UI, i.e. Seal Specifications for each category (Oil Seal, VRing-Seal, O-Ring,

SEAL SELECTION TOOL USER GUIDE - Timken Company

General Specifications Timken industrial seals offer a leading combination of quality, technology and high performance. However, there are additional considerations I such as shaft finish, temperatures and other operating factors I that can help our seals achieve even higher levels of performance. We recommend the following practices

Timken Industrial Seal Catalog

SEAL SPECIFICATION GUIDE The Timken Company, known for its top-quality line of bear- ings, has extended its product line to include seals. Timken, with 77 seal patents, already had the product knowledge for seal design. In fact, it was only natural for Timken to extend this experience into a complete line of seals for the automo- tive aftermarket. Each and every seal sold by Timken is man- ufactured with the same quality that goes into every Timken bearing.

ShowMeTheParts is changing how the world finds replacement parts for their vehicles.

Timken Online Parts Catalog

Product description Timken Seals are designed to prevent leakage around valves, shafts, and other moving parts of the vehicle. They prevent fluid from leaking out between the shaft and the housing. These seals prevent abrasives, corrosive moisture and other harmful contaminants from entering the machines.
