An I-Search paper is a personal research paper about a topic that is important to the writer. An I-Search paper is usually less formal than a traditional research paper; it tells the story of the writer's personal search for information, as well as what the writer learned about the topic. Many I-Search papers use the structure illustrated

Paper is a thin sheet material produced by mechanically and/or chemically processing cellulose fibres derived from wood, rags, grasses or other vegetable sources in water, draining the water through fine mesh leaving the fibre evenly distributed on the surface, followed by pressing and drying. Although paper was originally made in single sheets by hand, almost all is now made on large machines
