Self Report Of Reading Comprehension

Abstract. Proficient readers engage in a wide range of cognitive and metacognitive strategies, and both developmental and classroom intervention researchers are in need of high-quality measures of strategy use. Several researchers have recently called into question the validity of the most common type of measures of strategy use in reading, self-report or introspective measures (i.e., the participant must report on his or her cognitive activity while not actually engaged in the activity).

Self Report Of Reading Comprehension Strategies What Are

The goal of this study was to evaluate the extent to which training that emphasizes the process of executive function (EF) and self-regulated learning (SRL) would result in increased reading comprehension; we also evaluated interrelationships of EF, SRL, and reading. We report an experiment (N = 75 fourth graders) that contrasted two researcher-implemented conditions (text-based reading [TB] and text-based reading plus executive function [TB+EF]) to a control. We also evaluated relationships ...
