### Sugar Cane Planting Guide

Container Growing. Sugarcane plants grow very well in patio containers. Allow enough room for growth generally a 18 to a 24 diameter, 10 deep container will suffice. Remember the looser the roots, the taller and healthier your plant will be. When the plant becomes root bound its growth will slow. At that point it is time for a larger pot.

## Sugarcane - Wikipedia

Sugar cane can only be planted on grass, dirt, podzol, and sand blocks. The block must be directly adjacent to water and not merely above or diagonal as with crops. If a plant's water source is removed, it will break when it is next updated. In Bedrock Edition, the sugar cane is updated with its water, so it breaks immediately.
