~~Handbook of Sustainable Apparel Production -- 1st Edition --~~
If a product isn ' t made to last, it will break down faster and need to be replaced sooner than a well-made, durable piece of clothing. Sustainable, high-performance materials, such as Sorona®, which is partially derived from naturally renewable resources and offers a variety of performance benefits, are available to help apparel manufacturers create more durable products made to last for many years. We ultimately need to keep garments in closets longer and out of landfills.
