Illustrated Vol 1

TCP/IP Illustrated, Volume 1: The Protocols is an excellent text that provides encyclopedic coverage of the TCP/IP protocol suite. What sets this book apart from others on this subject is the fact that the author supplements all of the discussion with data collected via diagnostic programs; thus, it is possible to "watch" the protocols in action in a real situation.

TCP/IP Illustrated, Vol. 1: The Protocols (Addison-Wesley ...
TCP/IP Illustrated, Volume 1, is based on practical examples that reinforce the theory—distinguishing this book from others on the subject, and making it both readable and informative.” —Peter M. Haverlock, consultant, IBM TCP/IP Development “The diagrams he uses are excellent and his writing style is clear and readable.

Fall & Stevens, TCP/IP Illustrated, Volume 1: The ...

"While all of Stevens' books are excellent, this new opus (TCP/IP Illustrated, Volume 1) is awesome. Although many books describe the TCP/IP protocols, the author provides a level of depth and real-world detail lacking from the competition."

TCP/IP Illustrated, Volume 1: The Protocols | 1st edition ...

“TCP/IP Illustrated, Volume 1, is an excellent reference for developers, network administrators, or anyone who needs to understand TCP/IP technology. TCP/IP Illustrated is comprehensive in its coverage of TCP/IP topics, providing enough details to satisfy the experts while giving enough background and commentary for

TCP half-close is sometimes used to emulate Unix-style IO
redirection on TCP streams by using the FIN message as a EOF
marker. The book TCP/IP Illustrated, Vol. 1 provides a nice
example for this: ssh hostname sort < datafile. Here the “ssh ”
program starts the “sort” program on the remote host and reads
standard input from a local file named “datafile”.

TCP Half-Close: a cool feature that is now broken | Excentis

An early rumor was that Sun really stood for Stanford University Networking since two of the founders of the company were living in the Stanford dorms during the early years of Sun. Stanford for years has offered CS 144 - Introduction to Computer Networking. The class is based on Kevin Fall and Richard Steven's book TCP/IP Illustrated Volume 1.
