## TELECOMMUNICATION SWITCHING SYSTEMS AND NETWORKS ...

Field of telecommunications has evolved from crudest form of communications to electrical, radio and electro-optical communications. From manual exchange like local battery, central battery exchange, to crossbar switching, director system and to common control systems, telephone communications had started evolving to cater to better and better specifications and needs.

Journal of Telecommunication, Switching Systems and Networks (JoTSSN): is a print and e-journal focused towards the rapid publication of fundamental research papers on all areas of Telecommunication, switching systems and Networks.

Journal of Telecommunication (STM Journals) It fulfils the need for a suitable textbook in the area of telecommunication switching systems and networks. The text covers, in a single volume, both switching systems and telecommunications networks. The book begins with a brief discussion on the evolution of

Telecommunication system is an important and integral part of modern society. In addition to public switched telephone network (PSTN), it plays vital role in radio and television networks, internet and Asynchronous transfer mode (ATM) networks. The switching system provides various services to the subscribers.
