The Blind in French Society from the Middle Ages to the ...  
The integration of the blind into society has always meant taking on prejudices and inaccurate representations. Weygand's highly accessible anthropological and cultural history introduces us to both real and imaginary figures from the past, uncovering French attitudes towards the blind from the Middle Ages through the first half of the nineteenth century.

The Blind in French Society from the Middle Ages to the ...  
We might expect the classical age to have contributed something new to the domain of welfare for the blind, and in fact, The Royal Edict Establishing the Hôpital Général to Confine Poor Mendicants of the City and Suburbs of Paris, decreed in Paris in April 1656 , did concern blind and other beggars. indeed, this text prohibited the poor from begging, whether they were " able-bodied or disabled [emphasis added], sick or convalescent, curable or incurable, " and the Rule the King Would ...

The Blind in French Society from the Middle Ages to the ...  
The author of this paper is convinced that history provides one of the keys to understanding behavioural exclusion of the blind which continues still today. The paper provides a long term analysis of the reciprocal, yet not simultaneous influence of individual and collective images of the blind and how French society looked upon them from the Middle Ages to the eighteenth century when a new sensitivity and new institutions appeared which led to a new form of identity amongst the educated ...
