The evolution of air ambulances through the decades

On the eve of World War I, about 90% of the globe was Western or Western-dominated: Europe, Russia, the Americas, Africa, Oceania, and much of Asia (with the partial exceptions of Japan and China).

The Latest Evolution Of Western Power Strategy, Evolution, and War is a cautionary preview of how Artificial Intelligence (AI) will revolutionize strategy more than any development in the last three thousand years of military history.
