The Faith of a Scientist by Henry Eyring - Goodreads

The scientific methods were initiated by Christians of the past, and many Nobel Prize winners in Science have been Christians. A recent study of professional scientists I think put the number of Christians in the field today at around 40%. The issue is not science vs Christianity, there is no battle between them.

Faith of the Scientist – RESPOND

A belief in a Supreme Being, faith in the efficacy of a moral code, and a belief in a purpose in existence are not precluded by science, though science may question the credibility of a particular religious belief and thus serve as a constraint on religion. But men tend to hold beliefs associated with their religious faith inflexibly, a consequence of their all-too-frequent failure to acknowledge the limited ability of man to receive through revelation a perfect comprehension of truth.

Science & Faith « RE:quest

The arguments about whether such untestable theories constitute science at all have been raging for years, and the account of them offered in *Lost in Math* is thorough and accurate but sometimes rather technical. What makes the book compelling reading, however, is that it is not so much a polemic as a forlorn confession of Hossenfelder ' s crisis of faith.

A scientist ' s crisis of faith | Prospect Magazine

Einstein speaks of the “ profound faith ” of the scientist in the rational intelligibility of the universe. He could not imagine a scientist without it. For instance, scientists believe (= have faith) that electrons exist and that Einstein ' s theory of relativity holds because both are supported by evidence based on observation and experimentation.

It was a refreshing view in a world that puts science and religion at odds with each other. A Few quotes: "Faith is feeling good about myself, feeling good about God, and muddling along after truth as best I can." "The significant thing about a scientist is this: he simply expects the truth to prevail because it is the truth.
