The Lean Startup is a new approach being adopted across the globe, changing the way companies are built and new products are launched. Eric Ries defines a startup as an organization dedicated to creating something new under conditions of extreme uncertainty. This is just as true for one person in a garage or a

The Lean Startup: How Today's Entrepreneurs Use Continuous ...

"The Lean Startup is a foundational must-read for founders, enabling them to reduce product failures by bringing structure and science to what is usually informal and an art. It provides actionable ways to avoid product-learning mistakes, rigorously evaluate early signals from the market through validated learning, and decide whether to persevere or to pivot, all challenges that heighten the chance of entrepreneurial failure."

The Lean Startup: How Today's Entrepreneurs Use Continuous ...

The Lean Startup approach fosters companies that are both more capital efficient and that leverage human creativity more effectively. Inspired by lessons from lean manufacturing, it relies on "validated learning", rapid scientific experimentation, as well as a number of counter-intuitive practices that shorten product-development cycles, measure actual progress without resorting to vanity metrics, and learn what customers really want.
