SEACMEQ projects are large scale cross national research studies carried out in SEACMEQ countries to assess the conditions of schooling and performance levels of learners and teachers in the areas of literacy, and numeracy, as well as levels of learners' basic health knowledge. The SEACMEQ Consortium has successfully implemented and completed three large-scale cross-national educational policy research projects at 5 to 6 year intervals.

The SACMEQ Ministers asked the SACMEQ III Project Research Teams to address information needs in this area by developing a valid SACMEQ HIV-AIDS Knowledge Test that would be suitable for administration to Grade 6 pupils who have average ages of 13.5 years across the SACMEQ countries and 13.9 years in Swaziland, and their teachers.

~~(SACMEQ IV BRIEF) Draft Report~~

The main purpose of the SACMEQ III Project was to gather information that could be used by ministries of education to track trends in (a) the general conditions of schooling, (b) the reading and mathematics achievement levels of Grade 6 pupils and their teachers, and (c) the knowledge that pupils and their teachers have about HIV and AIDS.
