Tigers, like most mammals, utilize their lungs to respire gaseous oxygen from the atmosphere using diaphragm muscles to inhale and exhale. Tigers rarely use their sense of smell for hunting; their olfactory senses are used to scent-mark territory and for mating. The feline leukemia virus is a common ailment among tigers that causes respiratory problems.

Tiger Lung is a spectacular work of art that I highly recommend to anybody that enjoys comics/graphic novels. The artwork is phenomenal. Simon Roy's sketch-like style gives every scene a unique, simplistic charm while still having all the detail of a more traditional finished product.

Trigonella foenum seed, hu lu ba, or fenugreek seed is a Kidney tonic herb in Chinese medicine, but is often used as a Lung support herb in western herbal medicine. This is an especially helpful herb for those who have trouble inhaling, as the Kidney energy actually "grasps the Qi" when we breath according to TCM.
