~~TRANSFORMATION Your very own Business Guarantee!: How To ...~~

And today, what’s happening is a lot of companies are looking for a business transformation to maybe go to the cloud or implement a digital strategy, or even implement agile processes. But whether you’re internal or external, there are a lot of challenges that come on when you’re doing a business transformation.

~~Your Guide to Leading a Business Transformation ...~~

Under this definition, the development and introduction of a new IT-driven business service counts as a transformation: it will certainly affect the company’s business model (because it adds a new product and new revenue streams, perhaps even new markets or customer segments and new suppliers), it will most likely affect the organization (e.g. because a new organizational unit is needed that has to support the service) and the companies IT landscape will also change (because the service is ...

~~Ten Key Principles of Business Transformation~~

Business transformation allows for businesses to continuously be looking at how to achieve better results not only for their own corporation but for the world. 3. To reduce costs where possible...

~~The What and Why of Business Transformation in 2019~~

Business transformation programs have long focused on productivity improvement—taking a “better, faster, cheaper” approach to how the company works. And for good reason: disciplined efforts can boost productivity as well as accountability, transparency, execution, and the pace of decision making.

~~Why your next transformation should be ‘all in’ | McKinsey~~

divides business transformation into three types: Operational transformation – doing current things cheaper, faster and/or better, often with the assistance of digital technology. This seems to reflect the restrictive definition of change management above. Operational model transformation – doing what you’ve been doing but in a completely new way. Also known as Core transformation.
