Transhumanism is a philosophical movement that advocates for the transformation of the human condition by developing and making widely available sophisticated technologies able to greatly modify or enhance human intellect and physiology.

[Transhumanism - Wikipedia](#)

Transhuman, or trans-human, is the concept of an intermediary form between human and posthuman. In other words, a transhuman is a being that resembles a human in most respects but who has powers and abilities beyond those of standard humans. These abilities might include improved intelligence, awareness, strength, or durability.
