In this tutorial, we will get familiar with some editing basic. This will let us arrange footage to tell the story as we want. We will learn how to move, split, delete and trim clips. Once we have created a new project and imported our media, the next step is to start editing. This is where all the fun begins. Editor Panel

EP 5: Editing Basics

Once we have a basic grip of the above, then editing will be a breeze, and we can get more creative from a solid image base or what I'd like to call a clean edit. But first, a word on shooting format. Shoot in RAW. The images below are the original RAW images opened in Bridge without any edits applied.
