LXI Vinyl Cutting Software - Signwarehouse

LXi Rhinestone Wizard creates the template. The template is made of 20mm to 30mm stencil material and cut out on a vinyl cutter. This is one of those blog posts that should begin with the words, "Because you demanded it!" in big bold letters.

LXi Rhinestone Wizard Software for Decorated Apparel ...

Before you send the file to the vinyl cutter, it is important to make sure the software does not override the cutting conditions you will set on the cutter. The default mode in the software is for it to override these and it is preset for speed, which is not ideal for cutting thick materials like rhinestone stencil film.

LXI Rhinestone Wizard Tutorial: Design - SignWarehouse ...

This three-part tutorial addresses how to create and apply hot fix rhinestone patterns on apparel using the LXI Rhinestone Wizard

... you do, it is imperative that you set the plotter's conditions for cutting the stencil film. If you are using a Vinyl EXPRESS EnduraCUT, this can be done right here in the Driver Options menu by simply changing the values seen above in the FD and Speed windows

...

Vinyl Express® LXi 12 Vinyl Cutting Software

...

Vinyl Express LXI is based on over 20 years of experience of sign and graphics professionals and is engineered for simplicity and productivity. Interactive toolboxes and countless time-saving features support everything from basic vinyl graphics

to professional-quality large-format
printing.

I've used WinPC Sign, Make the Cut, LXi and a
host of others and they just don't have this
optimization when it comes to cutting
templates... Lxi has a sort feature that is
supposed to optimize the cut.... That latest
Make the Cut version is suppsoed to have
improved cutting optimization as well, WinPC
Sign has a Sort Objects feature that is
supposed to optimize the cut too... But they
just ...
