Vivitar 283 Flash Repair The Vivitar 283 is an excellent low cost professional flash. Due to it's robustness, consistency and ease of customization, it's very popular in the strobist community for off-camera applications. These flash guns have been around for ages and are built like tanks so there's loads of used flash guns available for

of 6v so it can be used on your cameras hotshoe.

Vivitar 283 has a trigger voltage of 240V. The RF-602 I would not use with a flash over 6v. The CTR-301P or cactus V4 I would not use with a flash with a voltage over 200. You can get a voltage multimeter from Radio Shack for \$20.
