Higgins We Dont Eat Our Climates By studying the so-called mean temperature of restaurant seafood, scientists have shown how the species that fill our plates have changed with time.

130-Year-Old Menus Show How Climate Change Affects What We Eat  
So why do we buy more food than we can eat? According to Chrzan, our species has an unconscious fear of hunger that could stem from a time when food was much harder to come by. "We have an inborn ...

Climate change: Do we have to rethink what we eat?  
Covering Climate Now speaks with different journalists about their experiences on the climate beat and their ideas for pushing our craft forward. This month, as part of CCNow's " Food & Water " coverage ...

Q&A: ' Climavores ' co-hosts Tamar Haspel and Mike Grunwald on unconfusing food and climate  
His comments were in contrast with statements from the Climate Change ... animal suffering. 'We don't need to go 100 per cent plant based, we just need to eat less, and we need to start now.' ...

Why we really DON'T need to eat less meat to save the planet: Selective breeding and 'methane inhibitor' food additives for livestock will reduce emissions faster than ...  
we play a significant role, and our behaviours matter too. Our diet is likely our biggest source of climate emissions, and eating mindfully is no longer an option; it is a necessity The main thing you ...

Climate Impact Due To Our Eating Habits  
If you care about climate change, we need to have a word about food. Specifically, about the fantastically unsustainable way we consume food in the U.S.

Do you claim to care about climate? Let's talk about what's on your plate  
The global food system allows us to buy almost any product we want, whenever we want — often at the cost of the environment. Scientists say we need to consume less. But are we even capable of changing ...

Food consumerism: What's stopping the switch to a climate-friendly diet?  
SOLUTIONS 70 Degrees in the Shade – in a Heat Wave? During last year's record-shattering late June heatwave in the Pacific Northwest, hundreds of people died and thousands more suffered from ...

Warming Trends: Chilling in a Heat Wave, Healthy Food Should Eat Healthy Too, Breeding Delays for Wild Dogs, and Three Days of Climate Change in Song  
Puerto Ricans facing the effects of climate change, hurricanes, and power outages on their food supply are turning to farming.

Climate-related food shortages are driving more Puerto Ricans to farming  
Most people are just average, and right now every "just average" person adds to our ... the climate action work I'm doing and being told to keep doing what I'm doing. We don't need ...

Is It Ethical to Have Children Amid the Climate Crisis?  
Despite these derelictions, I am enormously worried about climate change and devote a lot of energy to building a movement focused on saving our planet from environmental disaster. I am not proud of ...

Peace Train: Climate change will need more than individual responsibility  
Because even if we don't diversify our palates, climate change will do it for us ... " The first guy to eat it was pretty brave or pretty hungry. " Yet it's delicious, dense and versatile ...

New England waters are teeming with fish species. The problem is we eat too few of them.  
Former President Barack Obama said that to combat climate ... don't want a government-forced transition. We want the federal government to stop talking down investment and increasing regulations ...

We Don't Need a Costly, Mandated Detour to Electric Cars  
We here at Treehugger are believers that e-bikes will eat cars and cargo bikes will eat SUVs. This is especially the case when you take the current gas prices into account. Over on Electrek, e-bike ...
