Where China Meets India: Burma and the New Crossroads of Asia. By Thant Myint-U. 384 pp, Farrar, Straus and Giroux, 2011. Purchase. Thant, a former UN official, interweaves reflections on the past and future of Myanmar (also known as Burma) with a sharply observed account of his travels on both sides of the country's borders with India and China. Myanmar is historically and culturally close to India, but trade between the two countries is surprisingly limited and their political ties are thin.
