Running Windows Server 2008 R2 - Installing and Creating ...
Sysprep in Windows 2000 Server and Windows Server 2003 consisted of three files -- SYSPREP.EXE, SETUPMGR.EXE and SETUPCL.EXE -- found on the Windows Server CD in the \Support directory. Windows Server 2008, on the other hand, has Sysprep built right into the OS, found at C:\windows\system32\sysprep\sysprep.exe. That's it -- just sysprep.exe.

Building a Windows Server 2008 virtual test lab
I have limited experience with supporting windows server 2003/2008 and I have my Server 2008 MCSA but the study for this was predominantly reading and learning as opposed to practical exercises. I recently bought a fairly high spec desktop to use as a virtual host and installed oracle's virtual box.
